

### Reopen 15<sup>th</sup> June 2020

We are delighted to announce that we will be re-opening all the buildings at Hemswell Antiques Centres on 15<sup>th</sup> June 2020, whilst we have enjoyed good online sales and answering telephone calls and email/social media enquiries over the past 12 weeks, we know there is no substitute for a visit in person to one of our four buildings and seeing our friendly team of staff.

We have followed government guidance throughout all areas in order to safeguard all our visitors, staff and dealers, and as a result have implemented new working practices which are all now in place, all staff have been briefed accordingly. To ensure you have a great, worry free experience we have introduced strict social distancing incorporating clear one-way systems throughout the buildings, desk screens and extra hygiene procedures.

At Hemswell we have plenty of space, there is no need to get closer than 2 metres at any stage of your visit, however we will restrict numbers if necessary.

Our company code of conduct includes a clear instruction to all our staff not to attend work if they or any member of their household have or are suspected of having Covid-19, they are required to stay at home and follow government guidelines on self-isolating. If you or any member of your household unfortunately has or is suspected of having the virus, please leave your visit until it is safe to do so.

We very much look forward to welcoming you back in from Monday 15th June.

Best Wishes
